

Soccer Made in Germany

1. Introduction and Plan

Introduction and Purpose: German soccer has been a world force for decades. This Display exhibit will tell the story of German soccer, using some of the many philatelic items--stamps, cards, letters, booklets, sheets, and cancels, to name a few (as well as other ephemera)--produced in Germany surrounding the Beautiful Game.

Scope: German material will be used to illustrate this exhibit from early in the 20th century to 2021. Postally used items, where available, were chosen by the exhibitor.

First German Stamp Commemorating Soccer (1936 Olympic Competition)
